

# SLATE GREY

Part Of The Pavia Collection

## PRODUCT DESCRIPTION

Slate Grey's wear layer is constructed from 3-millimeter solid European Oak hardwood and its core is comprised of layers of plywood. European Oak flooring is one of the most sought after hardwood choices in the US. All of these layers combined to result in a 5/8"(15mm) total plank thickness and each plank measuring to 7-1/2" in width.

Each box of Slate Grey contains 23.3 square feet of engineered hardwood. Wire bristles are used to remove the softer grain within the wood, which accentuates the harder grain and creates a beautifully textured surface with added character. Our flooring is constructed from layers of plywood, topped by a solid European Oak veneer.

PLEASE NOTE: True color may vary based on your monitor settings.

## PRODUCT DESIGN AND SPECIFICATIONS

<b>Bevel:</b> Micro	<b>Plank Connection:</b> Tongue and Groove
<b>Collection:</b> Pavia	<b>Plank Length:</b> Random Up to 6ft (Most pieces are 6ft)
<b>Color:</b> Natural	<b>Plank Thickness:</b> 5/8"
<b>Construction:</b> Engineered Hardwood	<b>Plank Width:</b> 7-1/2"
<b>Finish:</b> UV Lacquer	<b>Sq. ft per Box:</b> 24.63
<b>Grade:</b> ABCD (Character)	<b>Texture:</b> Wire Brushed
<b>Installation Pattern:</b> Straight Plank	<b>Wear Layer:</b> 4mm
<b>Janka Rating:</b> 1360	<b>Wood Species:</b> European White Oak
