

# UNFINISHED HB 4 - 1/2" (3mm)

## PRODUCT DESCRIPTION

Unfinished HB 4-1/2 (3mm) wear layer is constructed from 3mm solid European White Oak Hardwood and its core is comprised of layers of plywood. All of these layers combined result in a 9/16" total plank thickness and each plank measuring 4-1/2" in width.

With flooring manufactured by ADM, you can set up the ageless look of European White Oak engineered hardwood flooring by implementing your own design expertise to the color and finish. ADM Flooring collections provide customers with a product perfectly made for their home and budget. Unfinished HB 4-1/2 (3mm) guarantees an economical choice within our ABCD grade. We assure you that it will give a modern feel to your current or upcoming renovation with its classic Natural European White Oak color and style combination.

Each box of Unfinished HB 4-1/2 (3mm) contains 10.13 square feet, half of which are left and right-sided herringbone planks of engineered hardwood. It has Unfinished surface texture and the planks are 27" long. Our flooring is constructed from layers of plywood, topped with a solid European White Oak veneer.

PLEASE NOTE: True color may vary based on your monitor settings.
